

Dear Sir

I am writing to you regarding NAB petition 04-160 as a XM radioo subscriber. I urge you to reject this petition. I pay for the privilege of having as needed traffic and weather reports for the Chicago area on XM. They are provided constantly so a listener can tune in as needed. This provides a better service than offered over the AM/FM airwaves where weather and traffic reports are only given a few times an hour.

In addition the lack of commercials and better quality of programming is why I subscribe to XM radio.

Thank You for your attention

Robert Bartczak
